Knowledge for better Cities

## ISOCARP is playing a key role in WUF7

ISOCARP's partnership with UN-HABITAT is going from strength to strength. We are an active member of the **Habitat Professionals Forum** and the **World Urban Campaign**. In Medellin, ISOCARP is a strategic partner for **Dialogue 2 – Urban Planning and Social Cohesion**. We also have a Networking Event, an ISOCARP exhibition booth, and are participating in or moderating several other events. Many of our members also have their own booths and events.
