2005-2006

COLLABORATION WITH OTHER INSTITUTIONS

UNESCO: In 2005 UNESCO provided the necessary financial support to the Young Planning Professionals' Programme for the last time. Thanks to the generous grant, several young professionals from less developed countries were able to participate in the 41st ISoCaRP World Congress. During 15 years the collaboration with UNESCO has produced the most fruitful and rewarding results by enabling many young professionals from all over the world to participate in our events. The collaboration and support will be remembered as one of the most successful collaborative projects in ISoCaRP history. UNESCO, thank you.
