**„Best Practices for sustainable cities – towards The City We Need 2.0“  
ISOCARP / CORP Workshop at Metropolitan Solutions 2016, Berlin  
1. June 2016 - 9.00 – 13.00**

*Cities are the place of economic production, knowledge and innovation – together with connectivity, creativity and services. As cities are dense, they offer also high potentials for energy savings and low carbon economies. However, cities are also today confronted to several challenges: unemployment, segregation, climate change issues.*

*Our ISOCARP Workshop will focus on implementation of good practices, by listening first from leading companies from the private sector, and secondly by presenting solutions for cities elaborated by urban planners in interdisciplinary teams: the Urban Planning Advisory Teams program (UPAT) of ISOCARP. The results of the presentations and discussions will be a contribution to the New Urban Agenda in Quito HABITAT III and presented by the General Assembly of Partners (GAP) under the ISOCARP Chair.*

**Draft Program Morning Session – ISOCARP Workshop**

09:00 Registration  
09:15 Introduction: Towards The City We Need 2.0 Moderator, Didier Vancutsem, **ISOCARP**

Best Practices in **Technology** for sustainable urban solutions

09:20 Sustainable Solutions towards energy transition Bertrand Porquet, **CNR**, Lyon  
09:40 Innovative Solutions for the Built Environment Birgit Detig, **ARCADIS**, Rotterdam  
10:00 Innovative Solutions in Technical Infrastructure Savvas Verdis, **SIEMENS** London  
10:20 Innovative Solutions in Mobility xxx  
10:40 Solutions for sustainable cities: the building industry Roman Sailer, **ZÜBLIN**, Germany  
11:00 Podium Discussion and interaction with attendance Moderator, Didier Vancutsem **ISOCARP**

Best Practices in **Concept and Design** for sustainable urban solutions

11:30 ISOCARP UPAT experience Martin Dubbeling, **ISOCARP**  
Zurich / Uljanovsk / Nanjing / West Bank Gaza  
12:00 Podium Discussion + Attendance interaction Moderator + Martin Dubelling  
Conclusions: Best Practices experiences Moderator **ISOCARP**  
12:50 ESPRESSO, a new innovative research project related to urban planning Pietro Elisei, **ISOCARP**  
13:00 Lunch

### **About ISOCARP, [www.isocarp.org](http://www.isocarp.org)**

The International Society of City and Regional Planners (ISOCARP) is a non-governmental organisation that brings together recognised and highly-qualified planners in an international network of both individual and institutional members. Founded in 1965, ISOCARP is structured through national delegations in more than 70 countries, its headquarters in The Hague, and liaison offices in key locations such as Beijing, Nairobi and Brussels. ISOCARP is recognised by the UN, UNHCS and the Council of Europe and has a formal consultative status with UNESCO. ISOCARP was the founding member of the Habitat Professionals Forum at Habitat II in Istanbul in 1996.

The objective of ISOCARP is the creation and distribution of knowledge for the improvement of cities and regions, and the planning practice in general. ISOCARP encourages exchange information and awareness at its events, stimulates research through publications, improves education and training through young planners and capacity building programmes, recognises key contributions through its awards, and provides neutral and expert technical advice to institutions and entities.

Planning has been identified as a key discipline in achieving sustainability in an urban world. As consultants to key decision-makers, city- and regional planners propose and support technical plans on behalf of the society in general, institutions and other actors such as civil associations and the private sector. Planners in the ISOCARP network combine technical knowledge and strategic thinking with practical implementation in mind, and are used to work in joint ventures and multi-disciplinary teams. ISOCARP also organises smaller scale seminars and publishes other professional documents, including the flagship publication ISOCARP REVIEW. ISOCARP has a Young Planners Programme in cooperation with leading universities and organises Urban Planning Advisory Teams to provide advice to governments and other entities interested in sustainable urban development.

ISOCARP is represented at major international events related to sustainable urban planning. ISOCARP is member of the Steering Committee of UN HABITAT's World Urban Campaign and is a frequent organizer of networking events at the World Urban Forum. ISOCARP is a partner organisation of key events such as the World Bank's Urban Research Symposium, ICLEI's Resilient Cities, the Global City Forum in Abu Dhabi and the World Cities Summit in Singapore, amongst others.
