CAPACITY BUILDING PROGRAMME
MEMBER TO MEMBER TRAINING

Jakarta, Indonesia, Podomoro University
September 7-8, 2019

Capacity Building Programme

New ISOCARP initiative offers capacity building programmes that provide training and planning education for the middle and higher management of cities and regions. A two-day training programme is designed for 20–30 city and regional planners with 5–10 years of experience. This year programme will provide the participants with an overview of various principles, instruments and tools used across the globe in order to make the cities responsive to the current challenges of urban growth, metropolitan megalopolises, contested role of human dimension in urban development, and a need for adapting local responses to global challenges.

General topics to be covered:

- Child-responsive Planning
- New Urbanism Trends in Urban Planning
- Methodology in Urban and Regional Planning
- New Metropolitan Discipline
- Waterfront Planning and Design

The ISOCARP Institute Academy Capacity Building Programme is open for members of ISOCARP, INTA (International Urban Development Association) and IFHP (International Federation for Housing and Planning).
